

Essex Raynet – Call-out Procedure

When you are placed on Stand-by

If you are at home, **stay where you are**, monitor primary VHF frequency (Ch. 25).

Prepare your equipment: (see list below)

- Food and drink
- Radio equipment
- General equipment (see 'Equipment Checklist' in Reference Material)
- Spare power supplies
- ID card and fluorescent clothing
- Personal belongings

DO NOT leave home even if mobilisation seems inevitable

When you are mobilised

Proceed to RVP as instructed

Monitor designated frequency (Ch. 21 or Ch. 25)

Please consider:

- Do you have sufficient fuel
- Do not break any speed limits
- Do you know your route or any alternatives in case of diversions
- Is your vehicle clearly identifiable as 'RAYNET'

On arrival change to designated operating channel.

Report to Essex Raynet Incident Officer and await further instructions
